

2021 Winter CSA

SHARE SIZE:

Half: a bag every other week for a family of 1 to 2

Full: a bag every other week for a family of 3 to 4

WINTER SHARE: half: \$225 | full: \$325

Weeks of Dec 2 - March 10: 2021-2022 (every other week)

Typical bag may include:

Spinach, baby greens, turnips, radish, kale, chard, micro-greens, pea shoots, micro herbs, celery, carrots

PICK UP: is on our farm. Self Serve hours:

Anytime after 3pm Thursdays - Sunday night.

Your Share comes in a purple tote bag to be brought back each week so we can re-use it; cutting back on the waste of boxes.

Our winter share is a fresh share-not storage crops. This means we will be harvesting each week from our heated and unheated tunnels to provide you with the freshest produce we can. Because the winter makes everything a little harder and heating the high tunnels adds extra cost, the winter shares are \$25 more per share than our in-season shares. Farming in the winter is well worth the extra work and cost; the taste of winter vegetables has no equal. The freezing and thawing of cold weather crops develop sugars in the plant that help it survive, resulting in the best spinach and kale and carrots you will ever eat ;)
